2017-2018, 2018-2019 and 2019-2020

D. Governance:

The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership:

The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging:

The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input:

Public input was solicited through face-to-face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach:

SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the

beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities:

A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time applications were submitted as well as any established funding priorities as described in this plan.

The City may accept applications for assistance continuously. Applications are placed in order of receipt. When funds are available, the applicant is contacted to update the application for SHIP assistance. Applicants will be placed in line for assistance when the required documentation has been received and have been deemed eligible under SHIP. Applicants will be processed on a first qualified, first served basis unless otherwise stated in a specific strategy.

The Home Purchase Assistance applications are processed on a first qualified, first served basis through participating non-profit agencies.

J. Discrimination:

In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing.

L. Purchase Price Limits:

The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the median area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

____X U.S. Treasury Department

The purchase price limit for new and existing homes is shown on the Housing Delivery Goals Charts.

M. Income Limits, Rent Limits and Affordability:

The Income and Rent Limits used in the SHIP Program are updated annually by the

Department of Housing and Urban Development and posted at www.floridahousing.org.

"Affordable" means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household's ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

N. Welfare Transition Program: Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

O. Monitoring and First Right of Refusal:

In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of \$10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.

P. Administrative Budget:

A line-item budget of proposed Administrative Expenditures is attached as <u>Exhibit A</u>. <u>The City of Lakeland</u> finds that the moneys deposited in the local housing assistance trust fund shall be used to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: "A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan."

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: "The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities

receiving a local housing distribution of up to \$350,000 may use up to 10 percent of program income for administrative costs." The applicable local jurisdiction has adopted the above findings in the resolution attached as <u>Exhibit E.</u>

Q. Program Administration:

Administration of the local housing assistance plan will be wholly performed and maintained by the <u>City of Lakeland</u>.

R. Project Delivery Costs:

In addition to administration listed above, the City project delivery includes inspections, work write-ups, client meetings, payment processing, and other staff hours associated with a Rehabilitation project.

S. Essential Service Personnel Definition:

"Essential Service Personnel" means teachers and educators, other school district employees, community college, and university employees; police and fire personnel; health care personnel; and skilled building trades personnel. SHIP assistance cannot be used to assist households whose income exceeds 120% AMI as determined annually by the Florida Housing Finance Corporation.

T. Describe efforts to incorporate Green Building and Energy Saving products and processes:

The City is committed to the production of energy efficient housing for long term affordability. The City will incorporate energy efficient improvements to reduce energy costs based on funding availability. Specific improvements include, but are not limited to: Installation of energy efficient doors and windows; Replacement of heating and/or cooling systems with high energy efficient 15 SEER; Installing R30 insulation; Energy star appliances and water heaters and Low consumption toilets and faucets.

U. Describe efforts to meet the 20% Special Needs set-aside:

In order to identify persons with special needs the City has included a question on its application inquiring if applicant or household member is handicap/disabled. If the answer is yes, staff sends a letter and/or calls to explain and asks for more details and then decides based on client explanation. If the client qualifies under the SHIP definition of Special Needs the client is assisted under the Special Needs Strategy.

V. Describe efforts to reduce homelessness:

The City coordinates efforts with the Homeless Coalition of Polk County and the Continuum of Care (CoC) through active participation in strategic planning and the point in time count. The City staff works closely with the local homeless and special needs providers to support their efforts in their programs to reduce and/or prevent homelessness. III. LHAP Incentive Strategies

In addition to the required Incentive Strategy A and Strategy B, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

A. Name of the Strategy:

Expedited Permitting: Permits as defined in s. 163.3177 (6) (f) (3) for affordable housing projects are expedited to a greater degree than other.

Provide a description of the procedures used to implement this strategy:

The City's Affordable Housing Incentive Plan became effective December 6, 1993 and contained provisions for expediting the permitting process for affordable housing development.

1) Single Family Infill Construction:

The City's Building Inspection Division has a relatively short turnaround time for permitting single family infill construction. Special consideration will be given to speed the process of issuing building permits to those developers who have qualified as "affordable housing developers". A list of qualified affordable housing developers has been created by the neighborhood Services Division and provided to the permit clerks of the Building Inspection Division. An updated list of affordable housing developers is provided periodically. Additionally, housing staff meets at least annually with the City's Building Official to review the process and update as necessary. At the time a request is made for the issuance of a building permit by a designated affordable housing developer and providing the single family dwelling unit meets the definition of "affordable housing" set forth herein below, the permit clerk shall process the permit request in an expeditious manner as follows: Providing that the building plans and permit request contain all necessary information upon submission and the proper building/impact fees have been paid (or appropriately waived or set up for reimbursement), the permit clerk shall flag the plans with a GREEN DOT. This green dot will draw attention of the plans examiner to the fact that the plans are to be treated as priority before non-affordable housing or commercial development and handled in an expeditious manner, resulting in the early issuance of building permits.

2) Multi-Family Developments:

Affordable housing builders of multi-family developments shall be approved by the Affordable Housing Review Committee (AHRC). Multi-family developments shall receive expedited permitting as referenced above. However, by their nature, larger multi-family developments must be reviewed and approved by multiple City service areas such as plans examiner, planning and zoning, traffic, landscape, electric, water, fire, etc. Multi-family developers are encouraged to schedule early preliminary meetings with the different departments and the Development Review Team (DRT) to assist in an early resolution of any development/plan requirements.

Definitions:

"Affordable housing" - Housing offered for sale at or below the City's State Housing Initiatives Program (SHIP) maximum purchase price limit for new construction shall be defined as affordable. Purchase Price limits for the City's housing program shall correspond with the maximum area purchase price published by the Florida Housing Finance Corporation (see attached Goals Charts). Rental housing meets the affordable definition if the units are offered to tenants with rents at or below the Rents Adjusted to Number of Bedrooms in the Unit as published annually by Florida Housing Finance Corporation. The rents represent the maximum gross rents which must include an allowance for utilities. Household income cannot exceed 120% of the area median income.

"Affordable housing developer" - Developers who have made application and been approved for incentives through the City's Affordable Housing Review Committee (AHRC) and contractors working through the City's Housing Division grant programs to provide housing through rehabilitation, reconstruction, emergency repair, and new construction under the Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), and State Housing Initiatives Partnership (SHIP). Such developers provide housing assistance to low income residents of the City who earn less than 120% of the area median income as provided under said grants.

B. Name of the Strategy:

Ongoing Review Process: An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

Provide a description of the procedures used to implement this strategy:

The Affordable Housing Advisory Committee was established by resolution to review established policies and procedures, ordinances, and development regulations, and the adopted local comprehensive plan of the City, and shall recommend specific initiatives to encourage or facilitate affordable housing while protecting the ability of the property to appreciate in value.
