PURPOSE: The purpose of this directive is to reaffirm the Lakeland Police Department’s commitment to bias-free policing, clarify the circumstances in which an officer may consider an individual’s personal traits when taking law enforcement action, and reinforce procedures to ensure all department members provide service and enforce the law in a fair and equitable manner.

POLICY: It is the policy of the Lakeland Police Department to prohibit bias-based profiling, during but not limited to traffic contacts, field contacts, searches and seizures, and asset seizure and forfeiture efforts; to train all members engaged in enforcement activities in the prohibition against bias-based profiling; and to thoroughly investigate all complaints of bias-based profiling. [CALEA 1.2.9 a]

DEFINITIONS:

Bias-Based Profiling: The selection of an individual or group of individuals for enforcement action based solely upon a personal trait that is common to a group of people. Traits of this type include, but are not limited to: race, ethnic background, national origin, immigration status, language fluency, gender, gender identity/expression, sexual orientation, disability, religion, economic status, occupation, housing status, age, and cultural group. [CFA 2.06 C]

Probable cause: The existence of facts and circumstances which would lead a person of reasonable intelligence and prudence to believe that a crime has been committed.

Reasonable Suspicion: Also known as “founded suspicion”. Suspicion that is more than a mere hunch. Suspicion that is based on a set of articulable facts and circumstances that would warrant a person of reasonable caution in believing that a violation of the law has been committed, is being committed, or is about to be committed by the person or persons under suspicion. “Reasonable suspicion” can be based on the observations of a police officer in light of their training and experience and/or reliable information received from credible outside sources.
