Attn: Property Owner

Subject: Lake Bonnet Drainage Mitigation Project
Notification to Access Property for Survey Work

Dear Property Owner,

The City of Lakeland and their consultant team (AECOM) are planning to conduct a property boundary survey at the above-mentioned site in Polk County. The survey will be conducted within Lake Bonnet and along its shoreline (see attached). The purpose of the survey is to determine the boundaries of various parcels owned by several individuals/entities. This survey is being conducted by AECOM under their existing contract with the City of Lakeland (PO# 297253). This project is being funded by United States Housing and Urban Development and Florida Department of Commerce (Contract# MT047) as part of the Lake Bonnet Drainage Mitigation Project.

To complete this survey, the AECOM team will require access to your property to provide access to personnel and surveying equipment beginning on or after September 2, 2025. The survey will likely be completed in one day, weather permitting. The City is sending this notification for your information.

Please feel free to contact me at 863-834-6276 or email Laurie.Smith@lakelandgov.net should you have any questions about this matter.

Sincerely,

Laurie Smith
Lakes & Stormwater Manager
City of Lakeland
